[Percentiles - Smarter Balanced Assessment Consortium](#)

Percentile Rank (PR) is a norm-referenced score that provides a measure of a student's math ability compared to other students in the same grade nationally. The percentile rank score, which ranges from 1 to 99, indicates the percentage of other students nationally who obtained scores equal to or lower than the score of a particular student.

[2015 NWEA Measures of Academic Progress Normative Data](#)

A student must earn a 95 percentile on the reading or math MAP assessment to be identified as gifted in those content areas. We are not permitted to look at the "percentile range" when considering gifted identification. Students may be identified as gifted in Math and/or Reading on any of the 3 administrations during the school year. 3. For current second graders or students seeking access ...

[Grades 3-8 Assessments: Scaled Scores](#)

Understanding SAT Scores might prove to be a tough task for candidates. The overall SAT test is scored on a scale of 400-1600, whereas in India, students are used to understanding scores in percentiles. That is why having a data table for interpreting SAT and Subject Test scores becomes necessary. Here is how the SAT score percentile is calculated.

[NWEA MATH PRACTICE BY RIT BAND - Mrs. Wallace's Classroom](#)

For example, if you got a composite percentile of 76, this means you scored higher than 76% of students on the whole test. If you got a percentile of 47 on the Math section, you did better than 47% of students on SAT Math. An example of an SAT score report with percentiles. Your percentile score is not like a grade out of 100.
