Many designers of all disciplines, some of them renowned names, keep in their speech the statement “design is problem solving” with the good intention of giving design a supposedly lost image of functionality and rigor.. I understand the use of “... is problem solving” as a metaphor, as an attempt to distance design from the ornamental and whimsical.

There is a difference between the problem and the problem you think you are solving. It's easy to start reading the first few lines in a problem and assume the rest of it because it's similar to something you've seen in the past. If you are making even a popular game like Hangman, be sure to read through any rules even if you've played it before. I once was asked to make a game like ...
