Key research topics. To understand the fundamentals of HEAs is a challenge to the scientists in materials science and related fields because of lack of thermodynamic and kinetic data for multi-component systems in the center of phase diagrams. The phase diagrams are usually available only for the binary and ternary alloys. For HEAs, no complete phase diagrams are currently available to ...

In cryptography, a certificate authority or certification authority (CA) is an entity that issues digital certificates. A digital certificate certifies the ownership of a public key by the named subject of the certificate. This allows others (relying parties) to rely upon signatures or on assertions made about the private key that corresponds to the certified public key.

The overall progress due to classroom effects can then be scaled by the total range in pupils' Overall Progress, from Table 5, of 50 NC points. The impact of the classroom environmental factors therefore models at 7.93/50, that is 16% of all influences on the variation in pupils' academic performance. Looking at it another way, 8 points over three subjects equates to 2.67 points per subject ...

The key determinant in the acceptability of a proposed puzzle-solution is its similarity to the paradigmatic puzzle-solutions. Perception of similarity cannot be reduced to rules, and a fortiori cannot be reduced to rules of rationality. This rejection of rules of rationality was one of the factors that led Kuhn's critics to accuse him of irrationalism—regarding science as irrational. In ...
