A 'black swan' event is a significant unexpected event that has huge consequences - such as the banking collapse of 2008 or a terrorist attack such as 9/11. There isn't a great deal to say about 'black swan' events once you've defined them - other than that there's not much you can do to prevent them as they are unpredictable. (And if you do manage to prevent one, no one will know you've ...

A black swan is a low probability, large impact event. Nicholas Nassim Taleb You Cannot Measure Black Swans. Black swans, by their own nature of being so unlikely and lying outside most people's grasp, are extremely difficult to measure and compute. The unmeasurability of black swan and the human tendency of discounting their very possibility, is a central tenet in the book. Nassim Nicholas ...

The Black Swan is the second volume of his 4-volume body of work on uncertainty, called "Incerto." Antifragile is the fourth. First of all, this has nothing to do with the (in my opinion good) movie Black Swan. This book is about statistics, probability, and how we often falsely use those to estimate the likelihood of real-life events.

In aboriginal folklore, the reason the black swan is black, is because men once transformed themselves into swans to deceive women that possessed boomerangs. The women ran to the river to view the beautiful birds, only to discover that, they had been tricked. The women chased the swans away to a nearby river, where eagles resided. The eagles attacked and pulled the feathers out of the swans ...
